

Kuraray Presents water based Polyvinyl Alcohol Solutions

Kuraray, a leading specialty chemicals company in Europe, introduces its water based polyvinyl alcohol solutions (Kuraray Poval™/ Exceval™). These ready-to-use solutions offer numerous advantages:

- Consistency and Reliability: Ready for immediate use with consistent quality.
- Energy Cost Reduction: No additional heating required.
- Flexibility: Customizable blends, variable solids, and additives.
- Sustainability: Low carbon footprint PVOH types from the Frankfurt production facility.
- Cost Efficiency: Elimination of the complex dissolution process reduces processing costs.

Important Note: Available in Germany and Austria.
